Overall structure (2/25/24)

- introduction
    + why study AD progression? Generic
    + Cite progression rakes, estimates, etc...
      show how different the estimates
      and results can be

- Methods
    + Desribe data collection process
    + Describe cohort definition
    + Describe why we Cox model w/
      XYZ predictors

- Results

- Discussion
    -> Don't know what to include....

2/25

Struggling to write this paper.

3/4.

Just read most recent draft:

next steps

- o Motivation: add one more paper to cite. Conclude that all of the papers use varying criteria, and how it may influence the analysis

  o
